

ITA Adjustable Pallet Fork | Skid Steer

Simple construction. Reliable engineering. The Sturgeon Skid Steer ITA Pallet fork is fabricated using heavy gauge steel tube and plate. With heavy profile-cut skid-steer pickups and European Made adjustable locking tines, you will experience reliability and peace of mind. If moving round pallets and loads every day is your thing, this is the attachment for your operation.

Heavy Plate Frame Construction

Fabricated from thick plate and tube framework, you have got an attachment that you can rely on. Every living moment.

Its Adjustable Locking Tines

The tines take it all. So, we only use the highest quality, forged high grade steel tines. Made in Europe.

Simple Load Guard Frame

Simple and strong load guard frame. Built from high tensile steel plate and with enough openings to see what your load is doing.

Polyurethane Marine Marine Grade Paint Finish

Not your average paint. We believe in quality finishes, and polyurethane paint is definitely one of them. Look the goods every single day.

Fully Integrated Pickup Hitch

Designed and fabricated as a fully integrated machine hitch pickup with heavy plate support gussets and bracing. Hitch set on correct angle to ensure optimum rollback angle when carrying loads.

100% Australian Made and Fabricated

100% Manufactured by Sturgeon Equipment in our Hamilton Facility to the highest quality standards. Only Aussie Made!
