

MULTIGRAB LT ULTIMATE Double Arm | Wheel Loader | 10-20T

The MULTIGRAB LT Ultimate Double Arm Grab combines the performance of a bucket and grab in a single tool. Perfect for raking up large limbs and trees, removing stumps and shrubs, sieving rocks and debris, and much more. Get the perfect grip on every load with the double arm, independent claws. Featuring high grade steel plate and ladder frame construction, the design is engineered to handle every load on your property. With the super tough 25mm XD450 Abrasion Resistant teeth and multiple hitch options — there is the MULTIGRAB available to suit your exact requirements.

As always, 100% Australian Made and covered with a 4-Year Structural Warranty.

28-30 Peck Street, Hamilton VIC 3300

01 Heavy Duty Build

Designed for harsh working conditions. Built with heavy tube and 25mm thick high grade steel plate, there won't be many loads that this grab can't tackle.

02 Massive Jaw Opening

With the massive jaw opening of 1.8m and bottom line length of 900mm, there won't be much that you can't handle.

03 Wear Resistant 25mm Xd450 Abrasion Resistant Teeth

For life-long performance in the harshest of conditions. The 25mm XD450 teeth stand up to everything you can put them through. From abrasive rock work, running through the ground all day and heavy timber work — they will keep their shape every single time.

04 Independent Claws For Uneven Loads

Completely independent motion of both claws. Perfect for loads that are random size and shape or logs that change diameter from one end to the other. Get the perfect grip every single time.

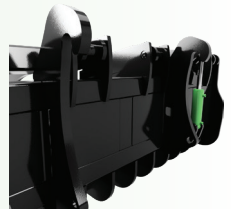

05 Locking Valve As Standard

Pro level feature as standard. No add ons or extra charges. Australian made hydraulic lock valve fitted for your peace of mind when clamping on large loads.

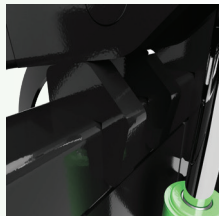

06 Heavy Duty Integrated Hitch

No off the shelf hitch pickups used here. We design and profile-cut our own. Perfectly integrated and reinforced - you can have confidence in your attachment.

07 Motion Stops On Claw

Whether it is up, or whether it is down. Heavy plate stops to protect the cylinders from excessive forces. We know operators.

08 Locally Made Hydraulic Cylinders

Locally Made and supported Hydraulic Cylinders. Made tough for harsh operating conditions and easily serviceable with parts available from local suppliers.

09 100% Australian Made and Fabricated

100% Manufactured by Sturgeon Equipment in our Hamilton Facility to the highest quality standards. Only Aussie Made!
