Heavy Steel Tube Construction

High Grade thick steel tube used for operator confidence. Built to handle the long days on the field.

01

Integrated Hitch Pickups

Profile cut pickup plates from thick high tensile steel plate. Built tough to handle the heavy loads.

02

Open Centre Design

No point having a pallet fork that is mostly obstructed by framework and plates. We designed it so you can actually see what you are doing. Makes sense, right?

03

Heavy Duty Load Guard

Tough construction that will see more loads than you ever will.

04

Polyurethane Marine Grade Paint Finish

Not your average paint. We believe in quality finishes, and polyurethane paint is definitely one of them. Look the goods every single day.

05

Industrial Adjustable Locking Tines

Adjustable locking tines supplied as standard with every pallet fork.

06

100% Australian Made and Fabricated

100% Manufactured by Sturgeon Equipment in our Hamilton Facility to the highest quality standards. Only Aussie Made!
