

Round Bale Fork | Telehandler

Simple construction. Reliable engineering. The Sturgeon Round Bale Fork is fabricated using thick gauge steel tube and plate. With heavy profile-cut telehandler pickups and German-made SHW Conus 2 Tines, you will experience reliability and peace of mind. If moving round bales every day is your thing, this is the attachment for your operation.

01

Heavy Tube Frame Construction

Fabricated from 6mm thick tube framework, you have got a framework that you can rely on. Every living moment.

German Made SHW 1250mm Conus 2 Tines

The tines take it all. So, we only use the highest quality, SHW forged spring steel tines. Made in Germany.

02

03

Open Centre Design For High Visibility

No point having a bale fork that is mostly obstructed by framework and plates. We designed it so you can actually see what you are doing. Makes sense, right?

Polyurethane Marine Grade Paint Finish

Not your average paint. We believe in quality finishes, and polyurethane paint is definitely one of them. Look the goods every single day.

04

05

Heavy Profile Cut Pickup Lugs

We won't settle for what everybody else does. We make our pickup lugs from thick, high-grade plate that will last the distance. So you don't have to.

100% Australian Made and Fabricated

100% Manufactured by Sturgeon Equipment in our Hamilton Facility to the highest quality standards. Only Aussie Made!
