

Ag Loader | Silage Bucket Grab

The Sturgeon Ag loader Silage Bucket Grab combines a bucket and a claw into a single attachment. Perfect for scooping, handling and loading loose feed and silage. With a super strong bucket shell and heavy and gusted plate top claw, this bucket grab will give you a versatile attachment that will keep your stock feeding operation uninterrupted.

Heavy-duty Construction

High Grade thick plate and tube construction to ensure this attachment never lets you down on the job.

01

02

Integrated Hitch Pickups

Profile cut pickup plates from thick high tensile steel plate. Built tough to handle the heavy loads.

28-30 Peck Street, Hamilton VIC 3300

03

Super-strong Gusseted Top Claw

Heavy plate gusseting and framework to top claw to give it maximum rigidity when piercing through loads of silage and hay.

Protected Hydraulic Hosing

All hosing routed to the rear of the grab for complete protection and reliability. No more broken or burst hoses.

04

05

Large Jaw Opening

With a massive jaw opening of 1.3m, you can easily pick up a large load of pit silage or even a full silage bale.

Removable Bucket Sides

Remove to easily get into your silage pit. Bolt back on to get loads of fine materials such as corn and feed additives.

06

07

SHW Conus 1 Spring Steel Tines

Adjustable locking tines supplied as standard with every pallet fork.

Locally Made Hydraulic Cylinders

Locally Made and supported Hydraulic Cylinders. Made tough for harsh operating conditions and easily serviceable with parts available from local suppliers.

08

100% Australian Made and Fabricated

100% Manufactured by Sturgeon Equipment in our Hamilton Facility to the highest quality standards. Only Aussie Made!
