

Square Bale Fork | Skid Steer

Simple construction. Reliable engineering. The Sturgeon Skid Steer Square Bale Fork is fabricated using thick gauge steel tube and plate. With heavy profile-cut skid steer pickups and German-made SHW Conus 2 Tines, you will experience reliability and peace of mind. If moving square bales every day is your thing, this is the attachment for your operation.

Heavy Tube Frame Construction

Fabricated from 6mm thick tube framework, you have got a framework that you can rely on. Every living moment.

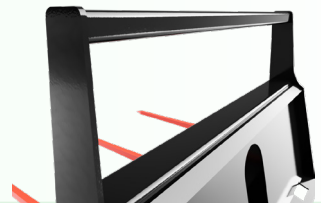

German Made SHW 1250mm Conus 2 Tines

The tines take it all. So, we only use the highest quality, SHW forged spring steel tines. Made in Germany.

Open Support Frame Design

No point having a bale fork that is mostly obstructed by framework and plates. We designed it so you can actually see what you are doing. Makes sense, right?

Polyurethane Marine Marine Grade Paint Finish

Not your average paint. We believe in quality finishes, and polyurethane paint is definitely one of them. Look the goods every single day.

Fully Integrated Pickup Hitch

Designed and fabricated as a fully integrated machine hitch pickup with heavy plate support gussets and bracing. Hitch set on correct angle to ensure optimum rollback angle when carrying bales

100% Australian Made and Fabricated

100% Manufactured by Sturgeon Equipment in our Hamilton Facility to the highest quality standards. Only Aussie Made!
