01

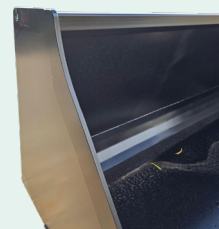

High Tensile Shell Construction

High Grade 550Mpa Steel Plate used for operator confidence. Built to handle the hard knocks of everyday use.

Heavy Duty Side Plates

No corners cut here. Extra thick plates welded into side plates for wear protection. High grade plate for long service life.

02

03

Under-body Protection Plates

High tensile under-body protection plates to extend the life of the bucket shell. Folded and welded for peace of mind.

Integrated Pickup Hitches

Hitches integrated into bucket structure for high strength.

04

05

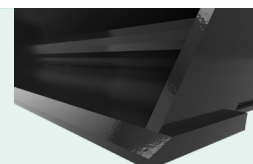

Polyurethane Marine Grade Paint Finish

Not your average paint. We believe in quality finishes, and polyurethane paint is definitely one of them. Look the goods every single day.

500 Brinell Oversize Cutting Edges

Oversized 150x20 500 Brinell cutting edges. Only the best is good enough. Bolt on edges available as an option.
