

MULTIGRAB LT ULTIMATE

Double Arm | Ag Loader | 120-200 HP

The MULTIGRAB LT Ultimate Double Arm Grab combines the performance of a bucket and grab in a single tool. Perfect for raking up large limbs and trees, removing stumps and shrubs, sieving rocks and debris, and much more. Get the perfect grip on every load with the double arm, independent claws. Featuring high tensile steel plate and ladder frame construction, the construction is engineered to handle every load on your property. With the option of either ECO350 High Tensile Teeth or XD450 Abrasion Resistant teeth — there is the MULTIGRAB available to suit your exact requirements. As always, 100% Australian Made and covered with a 4-Year Structural Warranty.

01 Heavy Duty Build

Designed for harsh working conditions. Built with heavy tube and 16mm thick high grade steel plate, there won't be many loads that this grab can't tackle.

02 Wear Resistant 16mm XD450 Abrasion Resistant Teeth

For life-long performance in the harshest of conditions. The XD450 teeth stand up to everything you can put them through. From abrasive rock work, running through the ground all day and heavy timber work — they will keep their shape every single time.

03 Tough 16mm ECO350 High Tensile Teeth

ECO350 Teeth are the match for medium to heavy timber and scrub work. The high tensile grade means no bent teeth and the perfect attachment for everyday cleanup tasks.

04 Massive jaw opening

With the massive jaw opening of 1.4m and bottom tine length of 700mm, there won't be much that you can't handle.

05 Locking Valve as standard

Pro level feature as standard. No add ons or extra charges. Australian made hydraulic lock valve fitted for your peace of mind when clamping on large loads.

06 Independent claws for uneven loads

Completely independent motion of both claws. Perfect for loads that are random size and shape or logs that change diameter from one end to the other. Get the perfect grip every single time.

07 Heavy Duty Integrated Hitch

No off the shelf hitch pickups used here. We designed our own. Perfectly integrated and reinforced - you can have confidence in your attachment.

08 Motion stops on claw

Whether it is up, or whether it is down. Heavy plate stops to protect the cylinders from excessive forces. We know operators.

09 Locally made hydraulic cylinders

Locally Made and supported Hydraulic Cylinders. Made tough for harsh operating conditions and easily serviceable with parts available from local suppliers.

10 100% Australian Made and Fabricated

100% Manufactured by Sturgeon Equipment in our Hamilton Facility to the highest quality standards. Only Aussie Made!
