

## Stick Rake | Ag Loader | 70-150HP

Simple construction. Reliable engineering. The Sturgeon Stick rake is constructed and fabricated simply but contains brilliant engineering for everyday use. Using high tensile steel plate and tube, this range of stick rakes will keep your property looking at it's best and the rest of your loader attachments in good condition. Standard and custom hitch pickups available upon request.

## Heavy Tube Frame Construction

Fabricated from 6mm thick tube framework, you have got a framework that you can rely on. Every living moment.

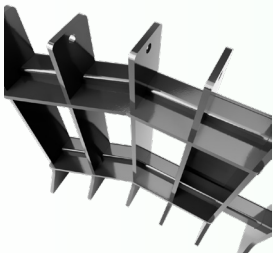

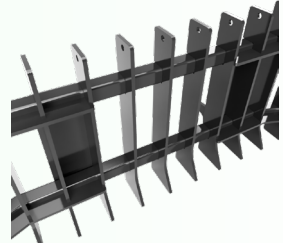

## High Tensile 16mm Tines

High Tensile 350 Grade 16mm tines as standard. So, you know that the cleanup job you have at hand will be completed without a worry.

## 900mm High Tines

900mm high tines for maximum carrying capacity of sticks, scrub and material.

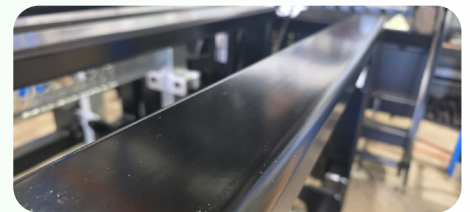

## Angled and gusseted ends

Angled ends to keep the load in front of your machine and not beside it. Heavily gusseted to ensure high strength and rigidity.

## Polyurethane Marine Grade Paint Finish

Not your average paint. We believe in quality finishes, and polyurethane paint is definitely one of them. Look the goods every single day.

## Heavy profile cut pickup lugs

We won't settle for what everybody else does. We make our pickup lugs from thick, high-grade plate that will last the distance. So you don't have to.

## 100% Australian Made and Fabricated

100% Manufactured by Sturgeon Equipment in our Hamilton Facility to the highest quality standards. Only Aussie Made!
